

Kitchen Planning Guide

STEP 1

See right picture and measure your kitchen

A= _____ INCH

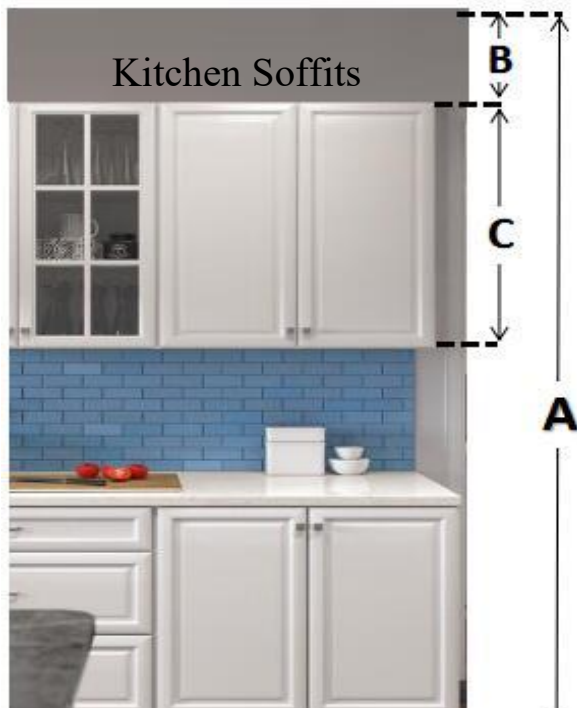

B= _____ INCH

C= _____ INCH

If cabinets go all the way to the ceiling B = 0"

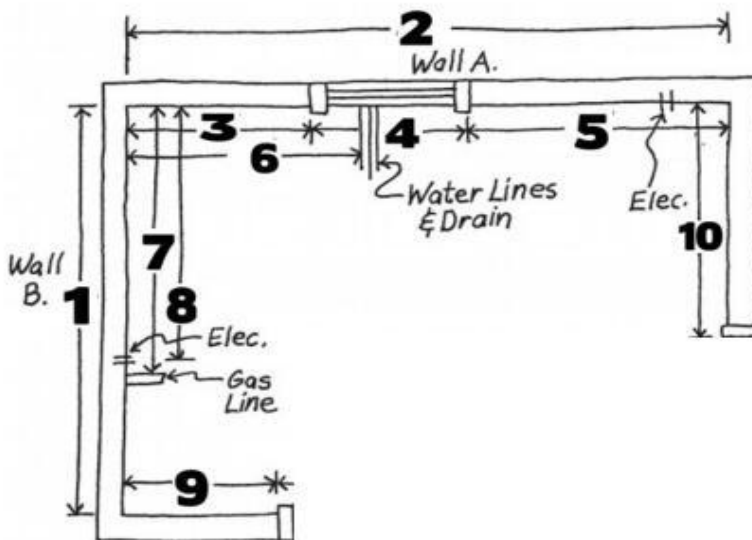

Soffits YES NO

If Soffits Keep Or Removed Keep Removed

STEP 2 Floor plan

1. Start by drawing a rough sketch of your room on paper follow the number wall to wall, mark all measurements in inches only [Example 113" not 9'5"].
2. Measure all the window openings from outside trim edge to outside edge.
3. Mark electric outlet for Stove, dishwasher and refrigerator.

Appliances INFO					Final Step
	Wide	Deep		Height	
Refrigerator					1. Double Check Measurements 2. Design The Cabinets 3. Take few your kitchen picture email us
Range					
Cooktop					
Wall oven					
Microwave					
Exhaust hood					
Dishwasher					
Sink					
Other
